## 3 Description

The automotive grade ZED-F9K-02A multi-band GNSS module with high precision and dead reckoning has reached initial production status. Compared to the previous version ZED-F9K-01A, there is no hardware change. The firmware has been updated from LAP 1.30 to LAP 1.50. For information on the firmware changes, see the Release note [2].

## 4 Customer impact and recommended action

Please see the list of relevant documents listed below for details.
